## Rocstor Unveils Its Newest Product Line The AIRHAWK to Satisfy the most sophisticated users; High-Performance Shock-Absorbent Pocket External Hard Drives for Demanding Mobile Storage Applications

**Canoga Park, (Los Angeles) California – January 5, 2009** – Rocstor, a leading provider of fast, high-capacity data storage and encryption solutions, is announcing its new line of AIRHAWK external hard drives. The AIRHAWK Pocket Drives deliver exceptional performance and reliability. Designed and engineered to meet the needs of demanding mobile data storage market, The AIRHAWK 2.5" external hard drives are compatible with both Windows® and Macintosh® environments.

**AIRHAWK H series** - Just like other Rocstor products, these drives are both bus-powered and bootable according to Mr. Asher, Director of Business Development. The new AIRHAWK Pocket Drives contain a fast, high capacity 2.5" SATA drive mechanism, with up to 800 MB/sec transfer speeds and multiple interfaces in a stylish case for thermal efficiency and silent operation.

### Groundbreaking Design:

The first of its kind in design; The AIRHAWK Pocket Drives designed to satisfy the sophisticated audiences in respect to design in addition to unprecedented quality and features with combinations of ports, FireWire 800 (1394b IEEE) ports, FireWire 400 (1394a IEEE) and High Speed USB-2.0 makes these devices some of the most versatile drives on the market. For extra flexibility, an optional cable can connect the FireWire 800 ports to any FireWire 400 (1394a IEEE) ports in any Mac or PC. The anti-shock chamber and shock-absorbent casing protect the drive against impact damage, accidental drops and bumps. These outstanding design features prolong product life and protect data integrity.

Despite the diminutive size and shock-resistant mechanism, the wide array of ports ensures maximum compatibility regardless of the type of computer or operating system that is used.

### Wide Range of Applications

Operating with Mac OS, Linux® and Windows®, this external drive offers storage capacities ranging from 160GB to 500GB as well as "plug-and-play" capability and hard drive speeds of up to 7,200rpm. This will allow users to quickly archive valuable data, large video files or growing digital photo collections or simply backing up important data. The bootable feature allows the user to boot, access and operate all programs and data via any another computer under the same OS environments with this hard drive.

### Special Features:

- Pocket size external storage drive
- Incorporates SATA Hard Drive
  - Airhawk H3: USB 2.0 connections
  - Airhawk H4: USB 2.0 and eSATA connections
  - Airhawk H5: USB 2.0, FireWire 400 (1394a) x2 connections
  - Airhawk H9: USB 2.0, FireWire 400 (1394a) and FireWire 800 (1394b) connections
- Enables FW 1394 bus powered and bootable
- Speeds up to 800 Mega Bytes per second (and up to 3GBits/s via eSATA)
- Enhanced with Shock-Resistant mechanism, despite its small size.
- Reduces power consumption with Hard Drive spin-down support
- Daisy chain multiple FireWire devices as your storage needs grow
- Automatic configuration (pre formatted for plug and play)
- Cross-platform compatibility
- Includes all necessary cables and software

### Specifications:

**Capacities:** 160GB, 250GB, 320GB and 500GB

**Rotational Speed** available with 5,400 or **7200** rpm

**Interface:** depending on the model, FireWire 800 1394b IEEE, FireWire 400 1394a IEEE, High Speed USB 2.0 (1.1 Compatible) and/or eSATA (3GBits/s)

**Transfer Rates:** Up to 800MB/s FireWire 800, up to 400MB/s FireWire 400 and up to 480MB/s USB

**Dimension:** To be announced

**Weight:** 6 Ounce

### System Requirements

**Mac or PC** computers with USB (1.1 or 2.0) or FireWire 800 or FireWire 400 (IEEE 1394b or 1394a) port(s)

Apple: PowerPC<sup>®</sup> or Intel<sup>®</sup> Core Duo<sup>®</sup> processor

PC: 266MHz or faster Intel or equivalent processor

**Recommended Memory:** 512MB RAM

#### Operating System requirements:

Apple: PowerPC<sup>®</sup> or Intel Core Duo<sup>®</sup> processor running Mac OS 9, X or higher

PC: Microsoft<sup>®</sup>, Windows<sup>®</sup>, 2000, Me, XP or Vista

**Power Requirements:** Bus Power

**Availability:** **THE AIRHAWK** will be available in February 2009, in Black and Silver, throughout our national and International Dealer/Reseller Channel. For more product information, visit

**About Rocstor:**

Rocstor offers the most extensive range of desktop and rack-mounted RAID storage hardware, at the most competitive prices. Rocstor's product line features cutting-edge technologies that are tested rigorously and proven for solid reliability. By coupling new designs with state-of-the-art technology, Rocstor is now one of the major players in the world of digital security.

**Rocsecure**—a division of Rocstor—is the industry leader in Secure Encrypted digital data content storage. Between their Rocbit and Rocsafe product lines, Rocsecure is able to offer secure Real-Time hardware data encryption AES 256-Bit and up to 192-Bit Triple DES encryption with multiple interfaces and cross-platform compatibility in both external and notebook-centered solutions.
