

ROCPORT ID

Rocstor Unveils Its Newest Product line THE ROCPORT ID; High-Performance Shock-Absorbent Pocket External Hard Drives for Demanding Mobile Storage Applications

Canoga Park, (Los Angeles) California – January 3, 2009 – Rocstor, a leading provider of fast, high-capacity data storage and encryption solutions, is announcing its new line of ROCPORT ID external hard drives. The ROCPORT ID Pocket Drives deliver outstanding performance, reliability and colors. Designed and engineered in USA to meet the needs of demanding mobile data storage market, The ROCPORT ID 2.5" Rocport external hard drive is compatible with both Windows® and Macintosh® environments.

Pick your ID

ROCPORT ID - Just like other Rocstor products, these drives are both bus-powered and bootable according to Mr. Asher, Director of Business Development. The new ROCPORT ID Pocket Drives contain a fast, high capacity 2.5" SATA drive mechanism, with up to 800 MB/sec transfer speeds and multiple interfaces in a stylish case for thermal efficiency and silent operation.

Groundbreaking Design:

The first of its kind in design and touch; The ROCPORT ID Pocket Drives designed to satisfy the sophisticated audiences in respect to design in addition to unprecedented quality and features with combinations of ports, FireWire 800 (1394b IEEE) ports, FireWire 400 (1394a IEEE) and High Speed USB-2.0 makes this triple interface device one of the most versatile and rugged drive in the market today. For extra flexibility, an optional cable can connect the FireWire 800 ports to any FireWire 400 (1394a IEEE) ports in any Mac or PC.

The anti-shock chamber and shock-absorbent casing protect the drive against impact damage, accidental drops and bumps. These outstanding design features prolong product life and protect data integrity.

Despite the diminutive size and shock-resistant mechanism, the wide array of ports ensures maximum compatibility regardless of the type of computer or operating system that is used.

Wide Range of Applications

Operating with Mac OS, Linux® and Windows®, this external drive offers storage capacities ranging from 160GB to 500GB as well as "plug-and-play" capability. This will allow users to quickly archive valuable data, large video files or growing digital photo collections or simply backing up important data. The bootable feature allows the user to boot, access and operate all programs and data via any another computer under the same OS environments with this hard drive.

Special Features:

- Pocket size external storage drive
- Incorporates SATA Hard Drive
 - Rocport ID3: USB 2.0 connections
 - Rocport ID4: USB 2.0 and eSATA connections
 - Rocport ID5: USB 2.0, FireWire 400 (1394a) x2 connections
 - Rocport ID9: USB 2.0, FireWire 400 (1394a) and FireWire 800 (1394b) connections
- Enables FW 1394 bus powered and bootable
- Speeds up to 800 Mega Bytes per second (and up to 3GBits/s via eSATA)
- Enhanced with Shock-Resistant mechanism, despite its small size.
- Reduces power consumption with Hard Drive spin-down support
- Daisy chain multiple FireWire devices as your storage needs grow
- Automatic configuration (pre formatted for plug and play)
- Cross-platform compatibility
- Includes all necessary cables and software

Specifications:

Capacities: 160GB, 250GB, 320GB and 500GB

Rotational Speed available with 5,400 or **7200** rpm

Interface: depending on the model, FireWire 800 1394b IEEE, FireWire 400 1394a IEEE, High Speed USB 2.0 (1.1 Compatible) and/or eSATA (3GBits/s)

Transfer Rates: Up to 800MB/s FireWire 800, up to 400MB/s FireWire 400 and up to 480MB/s USB

Dimension: To be announced

Weight: 6.2 Ounce

System Requirements

Mac or PC computers with USB (1.1 or 2.0) or FireWire 800 or FireWire 400 (IEEE 1394b or 1394a) port(s)

Apple: PowerPC® or Intel® Core Duo® processor

PC: 266MHz or faster Intel or equivalent processor

Recommended Memory: 512MB RAM

Operating System requirements:

Apple: PowerPC® or Intel Core Duo® processor running Mac OS 9, X or higher

PC: Microsoft®, Windows®, 2000, Me, XP or Vista

Power Requirements: FireWire (1394) Bus Power

Availability: **ROCPORT ID** series will be available in February 2009, in variety of colors and capacities throughout our national and International Dealer/Reseller Channel. For more product information, visit <http://www.rocstor.com> or <http://www.TheAirHawk.com>

Designed, Assembled and integrated in U.S.A.
Using domestic and/or foreign components.
Rocstor is a California Company.

About Rocstor:

Rocstor offers the most extensive range of desktop and rack-mounted RAID storage hardware, at the most competitive prices. Rocstor's product line features cutting-edge technologies that are tested rigorously and proven for solid reliability. By coupling new designs with state-of-the-art technology, Rocstor is now one of the major players in the world of digital security.

Rocsecure—a division of Rocstor—is the industry leader in Secure Encrypted digital data content storage. Between their Rocbit and Rocsafe product lines, Rocsecure is able to offer secure Real-Time hardware data encryption AES 256-Bit and up to 192-Bit Triple DES encryption with multiple interfaces and cross-platform compatibility in both external and notebook-centered solutions.
